

JUNAID ARIF

Full-Stack Web Developer (Laravel · PHP · MySQL)
Karachi, Pakistan | 0318-2513504 | arifjunaid039@gmail.com

github.com/arifjunaid039

SUMMARY

Detail-oriented and highly motivated web developer with hands-on experience building full-stack, responsive web applications using Laravel, PHP, and MySQL. Skilled at translating ideas into clean, functional, and user-friendly interfaces, with a strong foundation in modern front-end technologies. Quick learner with a genuine passion for problem-solving and continuous growth in a professional development environment.

TECHNICAL SKILLS

Languages & Frameworks: HTML5, CSS3, JavaScript, PHP, Laravel, C#

Database: MySQL, SQL, Database Design & Handling

Front-End & UI: Bootstrap 5, Responsive Web Design, Blade Templating

Tools & Practices: Git & GitHub, Version Control, Clean Code Practices

PROJECTS

BackToYou — Lost & Found Platform — *In Development*

GitHub: github.com/arifjunaid039/BackToYou

- Building a full-stack Laravel platform designed to help users report, search, and reclaim lost or found items across Pakistan.
- Implemented phone-based OTP verification as a mandatory registration gate to ensure user authenticity.
- Developed role-based access control using custom middleware to restrict site features for unverified users.
- Designed a responsive, enterprise-style admin dashboard with KPI cards, dark/light theme toggle, and mobile-friendly data views.
- Built community and location-based item filtering, a real-time-style messaging system between users, and a claim request workflow.

Technologies: *Laravel, PHP, MySQL, Bootstrap 5, JavaScript, Blade*

Corona Test & Vaccination System

- Developed an online system for scheduling COVID-19 tests and vaccination appointments.
- Built patient registration, appointment booking, and record-tracking features backed by a MySQL database.
- Designed a clean, easy-to-navigate interface for both patients and administrative staff.

Technologies: *HTML, CSS, JavaScript, PHP, MySQL*

Oxford Sofa — Furniture Showcase Website

- Developed a modern furniture showcase website focused on sofa products.
- Created product cards displaying images, prices, and material details.
- Added brand-wise sections and a responsive layout optimized for both mobile and desktop users.

Technologies: *HTML, CSS, JavaScript, Bootstrap*

Wheels Motor — Vehicle Listing Website

- Built a vehicle-based website for browsing and listing cars.
- Implemented structured navigation and a clean, intuitive UI for vehicle listings.
- Focused on responsiveness for a seamless browsing experience across devices.

Technologies: *HTML, CSS, JavaScript, Bootstrap*
