JUNAID ARIF

Frontend & Laravel Developer | PHP • MySQL • Full-Stack Web Applications

Karachi, Pakistan • 0318-2513504 • arifjunaid039@gmail.com • https://github.com/arifjunaid039 • https://muhammad-junaid-portfolio-ten.vercel.app/

PROFESSIONAL SUMMARY

Aptech web-development student and hands-on developer building responsive websites and database-driven applications with PHP, Laravel, and MySQL. Experience includes authentication and role-based access, admin dashboards, searchable records, reporting workflows, and responsive interfaces. Also exploring C#, ASP.NET Core, and AI-assisted full-stack development. Interested in internship opportunities where I can contribute to real projects, learn from a development team, and keep improving.

TECHNICAL SKILLS

Languages: PHP, JavaScript, C#, HTML5, CSS3

Frameworks & UI: Laravel, Bootstrap 5, Blade, jQuery, responsive web design

Database: MySQL, SQL, relational database design and CRUD workflows

Tools: Git, GitHub, VS Code, WAMP/XAMPP

Currently learning: ASP.NET Core, .NET ecosystem, AI-assisted full-stack development

SELECTED PROJECTS

Lab Automation — SBS Labs | https://github.com/arifjunaid039/LabAutomation

Built a Laravel lab-management system for product and test records, with product/testing IDs, advanced search, tester assignment, status/history tracking, PDF reports, and separate user/admin dashboards.

Tech: *Laravel, PHP, MySQL, Blade, JavaScript*

BackToYou — Lost & Found Platform | https://github.com/arifjunaid039/BackToYou

Developed a platform for reporting and finding lost items, including community listings, user messaging, claim tracking, OTP-based registration, and admin tools.

Tech: *Laravel, PHP, MySQL, Bootstrap, JavaScript*

CampusCoin — Student Budgeting App | TechWiz 7 | https://github.com/arifjunaid039/CampusCoin

Led a six-member project team and contributed to login/registration, profile features, file integration, and database design for an app that tracks income, expenses, budgets, and savings goals.

Tech: *Laravel, PHP, MySQL, Blade, Bootstrap*

Corona Test & Vaccination System | https://github.com/arifjunaid039/Corona-test-and-vaccination-system-Cognizance

Created a healthcare workflow for patient registration, test/vaccination appointment booking, dynamic doctor selection, and an administrative dashboard.

Tech: *PHP, MySQL, AJAX, jQuery, Bootstrap*

Oxford Sofa & Wheels Motor | https://github.com/arifjunaid039/Oxford-sofas | https://github.com/arifjunaid039/wheels-motor

Built responsive frontend showcase/listing websites with product or vehicle cards, structured navigation, and mobile-friendly layouts.

Tech: *HTML, CSS, JavaScript, Bootstrap*

LEADERSHIP & ACTIVITIES

Vision Project 2026 — Project leader; led the team and presented a working demo at the exhibition. TechWiz 7 — Group leader for the CampusCoin project.

EDUCATION

Aptech — ACCP AI / Web Development Training | Ongoing (started 2024)

Matriculation — Montessori Complex High School, Karachi | In progress
